PROFILE

Dedicated Full Stack Web Developer transitioning from a successful career in HR, Diversity & Inclusion, and Corporate Communications. Actively building expertise in frontend and backend technologies while leveraging a proven track record in project management, effective communication, and strategic problem-solving. Fully work authorized, no sponsorship needed.

PROJECTS

[DreamCatcher](#) | **React, Vite, SCSS, Express.js, Node.js, MongoDB, Chart.js**
- Developed a MERN stack web application enabling users to log, analyze, and explore dreams.
- Designed a responsive frontend for intuitive dream management and data visualization.
- Integrated a RESTful API for seamless authentication, CRUD operations, and role-based access.

[BetterReads](#) | **React, Vite, CSS, Firebase Realtime Database, Google Books API, Axios**
- Developed a web application to manage a personal book library using Firebase and Google Books API with real-time database updates.
- Implemented book search, saving, editing, and deletion features, with seamless backend integration.
- Designed an intuitive user interface with responsive components for managing book details and exploring search results.

[PacMan](#) | **JavaScript, HTML, CSS**
- Developed a dynamic, grid-based Pacman game using DOM manipulation to create the game space and handle interactions. Features include random enemy movement, superfood that freezes enemies, and tunnels for strategic gameplay.
- The game controls Pacman's movement with keyboard events, updates the grid dynamically, and tracks the player's progress with a scoring system and win/lose conditions.

EXPERIENCE

● **HR Specialist - Unico IDTech (Technology Sector)** | 2019 - 2023
Led strategic planning for Diversity & Inclusion (D&I) initiatives, showcasing strong project management and cross-functional collaboration; Consulted with Product and Technology teams on D&I best practices, showcasing expertise in communication and advising tech teams on inclusivity; Developed internal communication policies, increasing intranet engagement by 65%, highlighting problem-solving and digital communication skills; Managed onboarding and employee engagement programs, demonstrating ability to design user-centered processes, similar to user experience design in tech.

● **Corporate Communications - Alphaville Urbanism (Real Estate Sector)** | 2018 - 2019
Led corporate volunteer programs and executed major events, demonstrating project management, organization, and leadership abilities; Supported PR initiatives and managed relationships with stakeholders and press outlets, emphasizing strategic communication and relationship-building skills.

● **Corporate Communications - Raízen (Energy and Fuels Sector)** | 2017 - 2018
Managed internal communication efforts, including content creation and sustainability publications, reflecting experience in user-centered content and aligning messaging with organizational goals; Oversaw relationships with press agencies, contributing to corporate communication strategies and reinforcing your ability to collaborate with external partners; Handled administrative duties and ensured smooth operation of department processes, showcasing strong organizational and operational efficiency.
